## **Special Educational Needs & Disabilities [SEND] at Bushmead Primary School**

At Bushmead children are empowered to be active, confident learners where they are inspired to be creative and excel.

We aim to meet the needs of individual children through highly effective teaching and learning.

There is an emphasis on early identification of needs through supportive and preventative strategies which reduce barriers to learning.

We work in a flexible way to develop effective partnerships with children and their parents/carers, the Inclusion Manager, specialist teaching staff both within the school and external professionals to ensure that the school can meet a broad range of special educational needs.

We aim to provide the structure and support needed to allow each student to be happy, successful and realise their full potential.

Through a broad curriculum, highly skilled staff and child-centred values, we provide a positive learning environment which promotes independence and achievement.

We undertake a rigorous system of monitoring children's progress, supporting academic achievement and personal achievement by making reasonable adjustments to remove barriers to learning and use a wide range of strategies to foster a culture of lifelong learning and independent living skills for all children.
