Take One Picture 2024/25

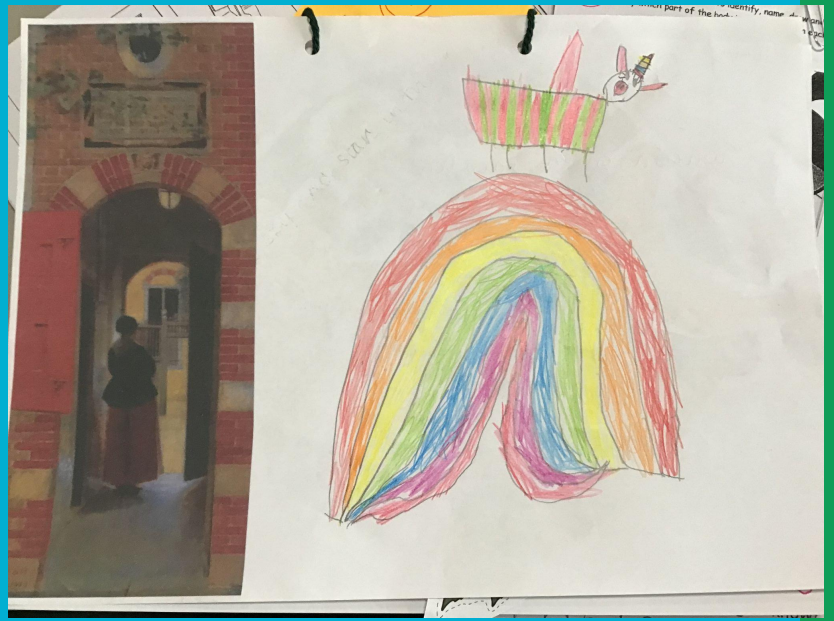

Bushmead Primary School

Bushmead Primary School, in Luton, have enjoyed studying and exploring this Year's painting 'The Courtyard of a House in Delft by Pieter de Hooch, 1658'

Bushmead Primary School

Year One

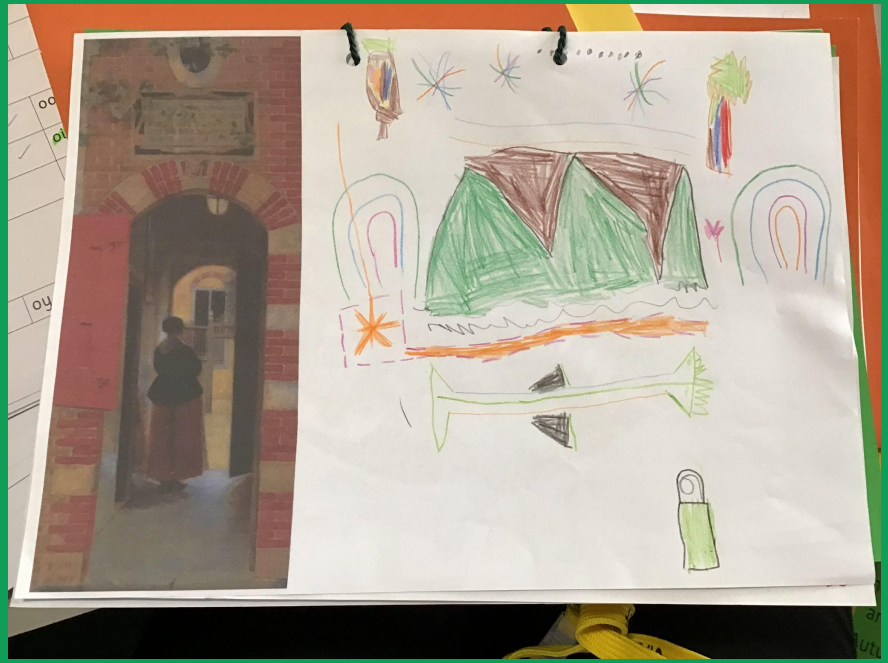

Children in Year One were looking at the lady standing in the arch. We discussed what she could be looking at and how she was feeling. The children drew a picture of what they thought could be hiding around the corner.

Bushmead Primary School

Year Two

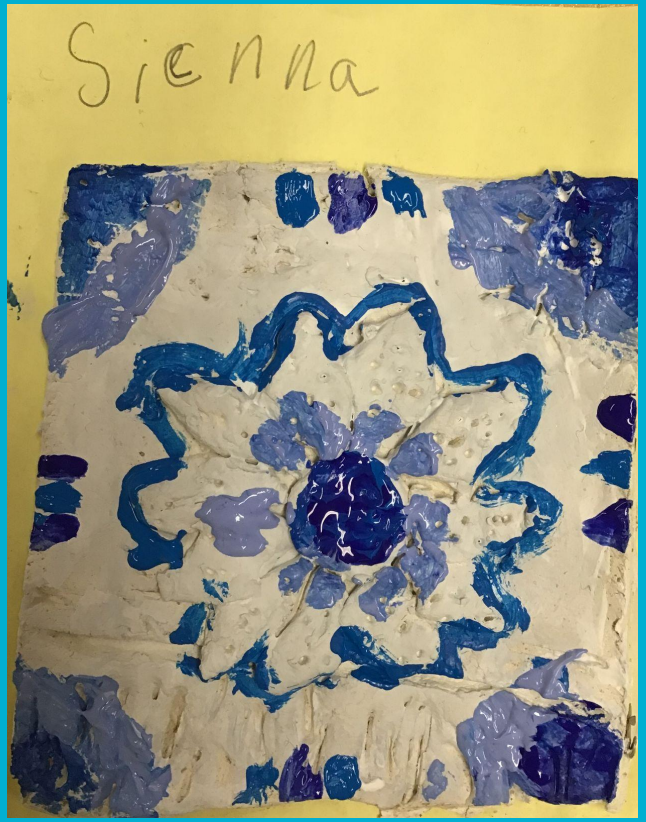

Children in Year 2 wondered what it might look like inside the house if you were to walk through the arch.
We researched which tiles might have been popular and discussed likes and dislikes.
Children designed their own tiles and then made them out of clay.

Year Three

Children in Year Three explored and discussed what the lady may have been looking at stood at the arch. We used our drawing and sketching skills and then incorporated some natural sculpture work, inspired by Andy Goldsworthy.

Year Four

Children in Year Four discussed the lady looking through the archway. The children then used their imaginations to think about what they would like to see if they were looking through the archway or through a keyhole. They then added texture by adding collage around their arch/keyhole

Year Five

Children in Year Five…
Looked at famous archways in Europe to link with their Geography topic. The children then researched a landscape from the country they had chosen, and presented the landscape through the arch.

Year Six

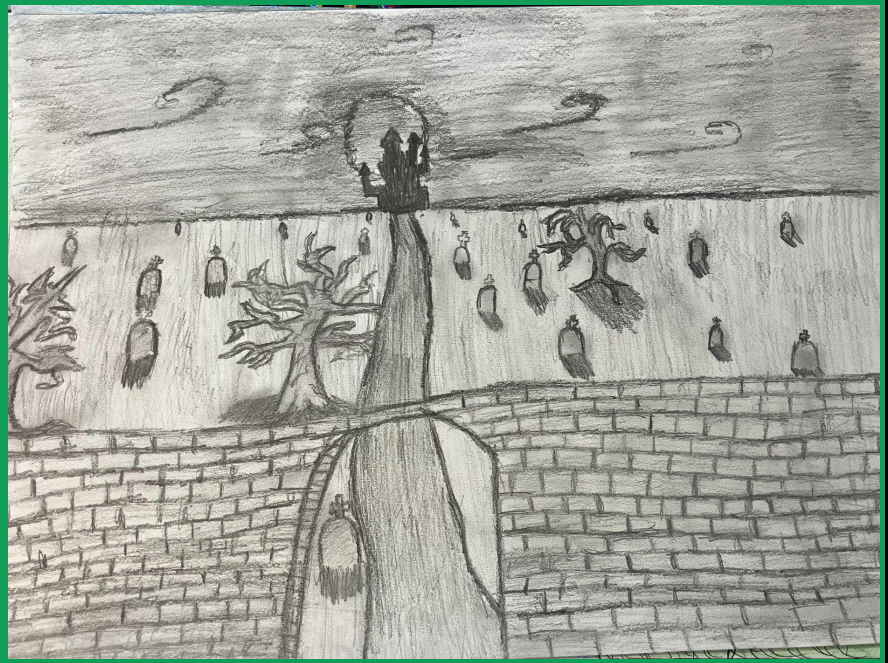

Children in Year Six were focusing on perspective. They used the arch as a focal point and considered what they would like to see through it and on the other side. The children explored a range of archway designs and structures, practised drawing from different perspectives and used their sketching and shading skills to create their final pieces.
